OBJECTIVE

Complete property protector against subterranean termites.

EXPERIENCE

1995-PRESENT

- Proven track record against all subterranean termite species attacking homes in the United States.
- Long history of continuous improvement in terms of proven colony elimination, technological advancements, reducing labor and enhancing customer satisfaction.
- Nearly 4 million homes protected from termites.
- Historic sites protected include the White House, Statue of Liberty, Ellis Island, Independence Hall, the French Quarter in New Orleans and many others.
- Work exclusively with Certified Sentricon Specialist™ (CSS) companies who receive comprehensive training.

SPECIAL SKILLS

- Proven curative and preventative termite protection.
- With stations baited all the time, Always Active™ technology provides continuous protection 24/7/365.
- Industry-leading customer retention rate.
- Label allows protection of any residential or commercial site, including sensitive sites such as schools and hospitals.
- Recruit® AG bait stations for above-ground infestations are included in the system and are labeled for use in food manufacturing, processing and serving sites.

AWARDS AND HONORS

- 1994 — First termite active ingredient registered under the U.S. EPA Reduced Risk Pesticide Initiative.
- 1995 — Industry's first label with no personal protective equipment requirement.
- 2000 — Presidential Green Chemistry Challenge Award by the U.S. Environmental Protection Agency based on its low impact on human health, low toxicity to nontarget organisms and low potential for groundwater contamination.
- 2010 — Industry's first annual service label for Recruit HD termite bait.
- 2015 — Recruit HD bait formulation awarded U.S. Patent.

REFERENCES

- More than 60 published scientific articles documenting colony elimination.
- More than 30 published papers by USDA Forest Service and university researchers.
- Exceeded requirements for EPA-approved protocol for durable baits.
